The News.

Later news from Maine indicates the success of the entire Republican Congressional ticket, and shows that the Republicans have made a clean sweep of the State. Both branches of the Legislature are largely Republican, and the Republicans have elected their Governor by a majority of about ten thousand. Well done for Maine!

The New York State Democratic Convention was held at Syracuse yesterday. Ex-Governor Seymour presided, and the Convention sat with closed doors.

A distressing tragedy occurred in this city on Tuesday. A Mrs. CHAMBERS, the wife of an apparently respectable man, who recently came here with the intention of going into business, poisoned herself by taking arsenic, and died that night. Her child, a little girl, also attempted to kill herself, with what her mother left of the poison. The particulars of the affair will be found in our local columns.

The steamer *Wm. H. Denny*, bound from St Louis to St Paul, was burned near Quincy, Illinois, yesterday. Fortunately no lives were lost.

The excitement in Kansas, in consequence of the gold discoveries at Pike's Peak, Kansas Territory, is said to be intense. Companies of miners are being formed in nearly all the towns of the territory.

A destructive fire occurred in the custom house at Baltimore yesterday, destroying property valued at $40,000. A fire also occurred at Chicago, yesterday; loss estimated at $20,000.

The New York breadstuffs market has at last taken an upward turn. Flour was active there, yesterday, and wheat was one to two cents higher. Our own market was very dull, in consequence of previous unfavorable reports from the East, and wheat was nominally lower.

The heavy rain of Tuesday night was followed by a fine clear day.

"The Star in the East!"

MAINE has nobly followed the example which VERMONT set last week. The Republican banner waves in triumph over both States. In both, after a warmly contested election, the Republicans have carried the day by majorities handsomely *increased* over last year. We look to see OHIO, PENNSYLVANIA and INDIANA do still better in October. And in November we hope to have a good report from NEW YORK, MICHIGAN, ILLINOIS and WISCONSIN. In all these States the Republican watch-fires are burning brightly and the friends of Freedom are rapidly organizing for another contest with the advocates and champions of Slavery.

AN OMISSION IN THE RECORD.—The editor of the Fox Lake *Gazette*, who was a looker-on at the recent Democratic Congressional Convention in the Third District, thus relates an incident, which does not appear in the official proceedings:

At one time an attempt was made to drive Judge Larrabee out of the convention, by a resolution introduced by Mr. Doty, of Portage City, *declaring Judges of the Supreme and Circuit Court ineligible to the office of Congressman.* This resolution was voted down, however, the members of the convention thereby committing themselves and their party to the principle they denounced, on the election of Judge Doolittle to the United States Senate.

Why was this *suppressed* in the official record? Who took the responsibility of expunging all reference to this awkward test proposed by Mr. DOTY? Can the Fond du Lac *Democratic Press* throw any light on the subject?

BUSINESS AND THE HARVEST IN FRANCE.—The French papers give unfavorable accounts of the prospect of the harvest and the state of business in France. The *Journal d' Agriculture Pratique*, which is considered the highest authority in such matters, says the long continued drought has so affected the crops that the yield will this year be inferior in quantity as well as quality.—The pasture lands are so dried up that there is no forage for cattle, and the small farmers are compelled to sell them in poor condition, at a great sacrifice. The accounts from the wine districts are favorable and the appearance of the grapes gives reason to hope that as far as the quality is concerned, the vintage will be a very superior one.

In trade and commerce, notwithstanding the accumulation of capital in the hands of bankers, Paris continues to suffer, and the shop-keepers have not experienced so dull a season since 1818. A vast number of country lodgings in the suburbs of Paris, are untenanted. Accounts from the departments state that in some few manufacturing districts large foreign orders have been received, while in others the manufacturers are still in a state of expectation.

FIREMAN'S TOURNAMENT AT WORCESTER, MASS.—This appears to have been a very successful affair. No less than *fifty-two* Engine Companies, from all the country round, competed for the prizes. The test was playing high, through 400 feet hose, size of nozzle optional. The following were the successful competitors, and the heights respectively attained by their streams:

AWARD OF PRIZES.

1st Prize, $400, to Edward Hopkins 2, of Woodville, 180 ft.
2d " 200, to Rescue 1, of Grafton, 162 ft.
3d " 150, to Blackstone 8, of Farnumsville, 161 ft.
4th " 100, to Pacific 1, of Chicopee, 161 ft.
5th " 75, to Quinsigamond 1, of Shrewsbury, 160 ft.
6th " 50, to Niagara 9, of Lynn, 158 ft.

After the regular trial Gaspee No. 9, of Providence, which only threw her stream 142 feet high, made a second effort and raised her stream to the height of 184 feet.

EIGHT HUNDRED SHEEP POISONED.—Mr. BIRD, farmer, at Burton, England, has sustained a heavy loss in a singular manner. He had a flock of 867 sheep, which were recently "dipped" in a chemical solution used for destroying ticks, &c., and then turned out to graze. It is supposed that this solution was washed off the sheep by a shower of rain and fell upon the grass, which, being eaten by the sheep, poisoned them. Only twenty-six out of the flock of 867 remained alive.

A BEAR KILLED.—The Central *Wisconsin* says that Mr. MILO KELLY, of Eau Claire, killed a bear near Slothower's Mill, on the Little Eau Claire, last week, weighing over *four hundred pounds*. It says bears are very numerous about that vicinity at present, and they are making a sad havoc among the calves

Romance and Rascality—Signor Moreto, alias the "Count," identical with the "Zouave."

The curious piece of romance and rascality that transpired in this city some time since in which Signor Moreto, alias the "Count," was the principal actor, is doubtless fresh in the recollection of quite an extensive circle of the "upper ten" who were duped or diddled by that exceedingly insinuating personage. The son of a millionaire, if not a millionaire himself—of agreeable person, killing mustache, unapproachable gentility of manners—possessed of every accomplishment that education and refined society could give—the fluent speaker of half a dozen languages, the master of every act of pleasing—what wonder that our comparatively vulgar realm of fashion opened wide its arms to welcome, that old ladies and old gentlemen admired, that young ladies doted on, that young men were jealous and envious of, the man who by common consent was dubbed the "Count," in virtue of his manifest attractions? What wonder that a feud grew up between two rival houses whose lovely daughters each urged a prior claim to his affections!—What wonder that the town was all agog when it began to be whispered around that this Adonis, Apollo and Crœsus combined, had planned such a steamboat excursion, connected with such an entertainment as would eclipse everything of the kind ever planned or given before?

Alas! for human hopes and anticipations.—The "Count's" remittances delayed their coming, and it was given out that he had hastened to New York to hurry them up. He was gone a long time—the fashionable world was on the tender-hooks of impatience—certain persons who had made advances to relieve his temporary embarrassment began to be suspicious, and then the awful truth came out that Signor Moreto was a humbug, and that everybody who had confided in him had been duped.

And now it turns out, as was hinted some time ago, that Signor Moreto who played these scaly tricks upon our citizens and the "Zouave" who abducted Miss Blount, and who only the other day attempted to murder some person in New York, for speaking against his precious character, are one and the same person. So writes a gentleman in Boston, who once had the honor to bail the Signor out of prison in that city, to a friend in Chicago. He knows him well by person and reputation and cannot be mistaken in the man.

This accomplished scoundrel, from the accounts we have of him, has had a most adventurous career. He is, so it is said, the son of a worthy and respectable Spanish merchant of Lima, but early in his life behaved so badly as to bring disgrace upon all connected with him, and left home a cunning and reckless adventurer. For some rascality he was not long after condemned to be shot in Chili, but a rogue's luck befriended him and he escaped. The next we hear of him is at Valparaiso, where he seduced a very respectable young lady, and came near being shot by her incensed brother. Arriving in this country, he contrived to win his way into the good graces of some of the first families of Boston and Roxbury, where he was regarded as the pink of gentility and the "glass of fashion," until his true character was discovered, when he was incontinently kicked out of good society. We are not familiar with the exact chronology of his adventures, but suppose he had just left Boston when he came here.—Where or in what character he will next turn up remains to be seen.—*Chicago Press & Tribune, of yesterday.*

Suicide at Odin.

ODIN, Ill., Sept. 14 '58.

Charles Scott, brother of the Freight Agent at this station, on the O., A. & St. L. road, and keeper of the station house hotel, committed suicide by cutting his throat, just as our train arrived here, about 9 o'clock A. M. The cause of this act was insanity. He was about 38 years of age, and leaves a family. In haste,

SMITH.

DESTRUCTIVE CONFLAGRATION.—This morning about four o'clock, while the hands were engaged drawing off wines, in the rectifying house attached to Uranus H. Crosby's distillery, on the North Branch, an explosion occurred from the high temperature. The blazing liquid was thrown over the whole apartment, and the building and its contents, together with two or three dry sheds and some four or five thousand bushels of grain, were destroyed.

The flames were carried by the wind directly on to Joy and Frisbie's ice-houses adjoining; two of which were consumed and some $500 worth of ice destroyed. Joy and Frisbie's loss in buildings is $2,000—covered by insurance.

It was impossible to estimate Mr. Crosby's loss this morning, and though partially covered by insurance, we were unable to learn to what extent, in consequence of Mr. Crosby's absence, East, at present.

P. S. The total loss, we have since ascertained reaches about $20,000.—*Chicago Journal, of last evening.*

MELANCHOLY ACCIDENT—RESULTING IN THE DROWNING OF A YOUNG WOMAN.—A melancholy accident happened from the Third Lake Rail Road Bridge on Monday evening last. It appears that two young women, employed at the Water Cure Establishment, were coming from that place on a visit to their friends in the City. It was getting dark, and as they walked on the Rail Road Bridge, Kate Harrington made a misstep, and fell between two timbers which were apart, into the water. Her companion stretched down her hand to assist her, when Kate caught hold of the sleeve of her dress, and held on to it, until it gave way and left her to go under water. Her companion whose screams for help had mingled with the cries of the drowning woman, now rushed towards some houses, at the end of the bridge about eighteen rods distant, and got assistance. Miss Harrington's body after a short time was recovered with a spear, and borne to the house of her parents, who live near the Depot, and who were expecting to receive her, in happiness and health. She was brought to them in a sad shape, and Dr. Heath who shortly arrived, at once pronounced her deceased.

She was a good looking young woman aged about eighteen years.—*Madison Patriot, Sept. 15th.*

ST. LOUIS CONTESTED ELECTION.—In this interesting and important case, Judge Lackland rendered a decision this morning in favor of the application of Mr. Blair, and a peremptory order was given on the Clerk of the Court to produce, without delay, true and full copies of the ballots in question.

Previous to rendering his decision, Judge Lackland gave a carefully prepared digest *in extenso* of the laws of Congress on the subject, and of the arguments of counsel in the case, the great length of which precludes us from favoring our readers with a copy of it in this day's issue.—The Judge assumed that he had full power to order an examination of the ballots and to cause the same to be spread upon the records of the Court, and declares the action of the County Court in refusing access to the ballots to be illegal and without authority. The application of Mr. Blair, as well as the positions assumed by him, were sustained in every particular.—*St. Louis News, 11th.*

THE RED RIVER TRAIN ATTACKED BY SIOUX ON THEIR RETURN—TWO MEN KILLED.—A letter from James McFetridge, Collector of Customs at Pembina, dated Aug 22d, to Messrs. Culver & Farrington, has the following news:

"DEAR SIRS:—I have got home all safe in 12 days from St. Paul, but am sorry to say that all the parties did not, as the Sioux killed two of our men on the plains about one day from St. Joseph. One of the men you know, that is the man that had charge of Henry Fisher's carts, Bourquer; and the other man's name is John Beads. There were four in the party; two escaped. They had left the carts and started on ahead for Pembina, when they were overtaken by the Sioux, nine in number, and fired upon.

Our carts have not arrived yet, and we begin to feel alarmed about them. I am going to send out a party of men to meet them. Judge Johnston starts from here to-morrow for St. Paul.—Rolette has not arrived."—*St. Paul Minnesotian, Sept. 13.*

SENATOR CHANDLER.—This gentleman, we are happy to state, has so far recovered from his recent severe injuries, as to be able to appear in the streets once more. It will rejoice his numerous friends to learn that he will be restored to active life without the disagreeable reminder of his misfortune of a scar. No such momento will disfigure him. It is a happier issue than his friends had dared to hope at first, but assiduous care and medical skill have compassed the gratifying result.—*Detroit Tribune, Sept. 14.*

DESTROYED BY FIRE.—The dwelling house of Ira Davis, on the other side of the lake, was burned to the ground one week ago yesterday. Mr. D., had left home in the morning for Mackford, little thinking that when he returned, his new home would lay in ruins. The building was a new one, costing somewhere near $1,000. But very little furniture was saved.—*Fox Lake Gaz. Sept. 14.*

Another Domestic Tragedy—Suicide of an Unhappy Wife and attempted Suicide of her only Child.

On Tuesday afternoon, word came to the Police Station that a Mrs. CHAMBERS, boarding at the house of Mr. GARLAND, on Jefferson street, a few doors above Martin, had taken poison and was likely to die. Policeman GARLICK was at once despatched to the house to inquire into the particulars. He found Mrs. CHAMBERS very ill, and in reply to his questions she said that she had taken arsenic with intent to destroy herself, as she was tired of living. It appeared, on further inquiry, that Mrs. CHAMBERS, her husband and their only child, a little girl between seven and eight years old, came to this city a few weeks since from Buffalo; Mr. CHAMBERS intending to go into business here, and having leased a store and brought on a stock of goods with that view. The parties had lived unhappily for two, or three years past, and at length, about six months ago, a separation took place, for the reason, as the husband stated, that "he could not live in peace with her." He, however, continued to maintain the mother and child, who were left together, and did all in his power to make them comfortable. When they came to this city, he took lodgings at the Walker House, while Mrs. CHAMBERS and her daughter went to the American. On Saturday last, she went to the residence of Mr. GARLAND, whom she had known in Buffalo six years ago, to board. On Tuesday morning she stated that she was going down street to consult the Astrologist at the Walker House. She doubtless took this opportunity to buy a package of arsenic somewhere on East Water street, though where, she did not remember, nor was it ascertained.

Shortly before 2 P. M., Tuesday, Mr. CHAMBERS came to see her at the residence of Mr. GARLAND. They went up to her room, together, with their little girl. A brief conversation followed in which she expressed her dissatisfaction with the way in which she was living, and he offered to procure her other quarters, if she wished, and do all in his power to contribute to her comfort. She told him that she had heard he intended to take her child away from her, and he, in reply, assured her that he should never do so without her consent. She then sent her daughter down stairs for a glass of water, and on her return, sat down to write, bidding her daughter to sit by and talk to her father. Immediately afterwards Mr. CHAMBERS saw her suddenly raise a paper to her lips, swallow something hastily, and gulp down the glass of water. Suspecting her purpose, as she had often threatened to kill herself, he sprang forward and snatched the paper from her hands, too late, however, to prevent her from swallowing the poison. Alarmed and excited, Mr. CHAMBERS dropped the paper, and hurried out for a doctor; telling Mr. GARLAND what had happened. Mr. G immediately ran up stairs and found that the little girl *had swallowed what was left of the arsenic, with the intention of killing herself also.*

In the course of five minutes, Dr. GARNER arrived. He found Mrs. CHAMBERS calm and quiet. She stated freely what she had done, and why. She accused her husband of ill-treatment and infidelity, and said that he told her that he had procured a divorce and meant to take her child away from her. This Mr. CHAMBERS most earnestly denied, and the denial seemed to satisfy her. Dr. GARNER proposed, at once, to apply certain remedies, but for a long time, she positively refused to take anything. Finally, partly through the influence of her little daughter, she was induced to swallow an emetic. This produced the desired effect, and an antidote was next administered. The little girl was similarly treated. When asked why she took the poison, she said that she "wanted to die with her mother, and was not willing to live with her father." Fortunately, she had not taken enough to kill her, and she recovered; but the large quantity of arsenic swallowed by the mother, and the long time that elapsed before she would take any remedy, baffled all the efforts of Dr. GARNER to save her life. She died between 10 and 11 at night, conscious almost to the last, and unrepentant of the deed.

The deceased was about 35 years old. Her maiden name was ELIZA A. WARNER, and she lived near Collins, Erie County, New York, where she has two brothers, and a married sister living. From all the evidence that could be gathered, it would seem that she was of an unhappy temper, morose and melancholy in disposition; and that for two or three years past she had frequently threatened to destroy herself. It did not appear that Mr. CHAMBERS himself was in fault, or that he had not done all in his power to make her contented and happy. His evidence before the coroner's jury was given with great frankness, and under very strong feeling.

The inquest was held yesterday morning before Justice WALWORTH and the following Jury: G. W. CLASON, JOSEPH LATHROP, W. S. HUNN, RUFUS KING, H. S. FRISBIE, FRED. WARDNER.—The witnesses examined, Mr. GARLAND, Mr. CHAMBERS, Dr. GARNER, and policeman GARLICK, swore substantially to the facts as above narrated. The Jury, upon this evidence, found a verdict that the deceased came to her death by poison, administered by her own hand and of her own free will.

P. S.—A STRANGE FINALE!—The funeral of the late Mrs. CHAMBERS took place yesterday afternoon. Just after the procession had crossed Walker's Point Bridge, on the way to Forest Home Cemetery, the carriage containing Mr. CHAMBERS and his little girl, drove off, at full speed, in the direction of the Lake Shore Rail Road, leaving strangers to bury his dead wife! It is supposed that Mr. CHAMBERS had made all his arrangements for this purpose and had sent his luggage down to the cars before the funeral started. We hear also, that the stock of goods which he brought on here, has been shipped to Illinois, and that he had re-leased to Mr. LANDA, for $60 in advance, the store which he had leased from BERLINER & BRUNO, and on which he had paid nothing. These and one or two other facts which have transpired, raise the suspicion that CHAMBERS was a heartless knave and that there was good ground for the story of his wife, that his ill-treatment and misconduct drove her to commit suicide.

Grain in Store at Milwaukee

In a commercial article in a late issue of the Detroit *Advertiser*, it is stated that "at Chicago, Milwaukee, Toledo, Cleveland, and Sandusky, nearly all the warehouses are full (of grain) to overflowing, and in some of them the grain has to remain stored in the cars on the track." As far as relates to Milwaukee, this statement is very wide of the mark. There has been comparatively little grain stored here this season, thus far, and instead of the warehouses being "full to overflowing" they are very nearly all *empty*.—From careful enquiry we learn that the whole amount of grain in store here at the present time, is considerably less than one hundred thousand bushels, and a review of our figures of receipts and shipments along back point to the same conclusion. Last week the amount of wheat received here by Rail Road was something better than one hundred and fifty-one thousand bushels, but the shipments amounted to upwards of *one hundred and seventy-six thousand* bushels. Our grain dealers have not begun to store any wheat yet, nor is it likely that they will until after the close of navigation.

The greatly increased shipments at this season should not be taken as an indication of an increased supply, for the contrary is really known to be the case. The increase in shipments is accounted for in the fact that our farmers held back their grain last year in hopes of obtaining better prices by keeping it until Spring, but the experiment proved so disastrous that the majority of them do not feel disposed to try it again. Nearly every bushel of marketable grain has been rushed to market this season, and the receipts are weekly on the increase. The result of this will be, that the amount of grain for shipment from Wisconsin next Spring must fall far short of the shipments for last Spring and the past Summer. The same remark we think, is applicable to Illinois and other Western States.

Book Notice.

THE STORY OF THE TELEGRAPH, and a history of the great Atlantic Cable, compiled by Chas. F. Briggs and Augustus Maverick, and for sale by Strickland & Co., Milwaukee, Wisconsin.

A neat printed 12 mo volume from the press of RUDD & CARLETON, New York, bearing the inscription "The Story of the Telegraph" has been placed upon our table by Messrs. STRICKLAND & Co. of this city. The volume comprises a complete and authentic narrative of the various steps in the progress of the Atlantic Telegraph. It embodies a sketch of the early history of telegraphic operations in the United States and Europe, gives a general view of the previous attempts to introduce the use of sub-marine cables in different parts of the world, and proceeds to give a complete record of the inception, progress, and successful termination of the Atlantic Telegraph enterprise. In the course of the narrative are comprehensive memoirs of Mr. CYRUS W. FIELD, of whom an excellent steel portrait adorns the book, of Prof. MORSE and other gentlemen whose names have been internally associated with the work.

At this time, when the science of telegraphing is producing such wonderful results, information respecting its nature and operations, is eagerly sought by the public mind, and the work before us is one that will be read with much interest.

MILWAUKEE, WATERTOWN, & BARABOO VALLEY RAILROAD.—We were informed last evening, by the officers of this Road, that the Company had made provision to pay the interest on the first mortgage bonds, on the 25th poximo, in this city, in exchange on New York. The interest was due on the first of this month.

POLICE COURT TUESDAY AND YESTERDAY.—Monday John Brunell was sentenced to thirty days imprisonment, for stealing four horse brushes, from a drug store in the Fifth Ward.

Christian Ernst, disorderly, fined $5 and costs.

Frank Champion, intoxicated, fined $1.

Jerry Meyer, discontinued case, dismissed.

Yesterday, Peter Haeg, charged with stealing a mason's trowel and plumet, was recognized in $300 for his appearance before the Circuit Court,

John Smith, disorderly, fined $2.

Peter Willony, charged with disorderly conduct, was found not guilty.

Lawrence Hoffman, intoxicated, fined $1,

MILITARY.—The City Dragoons, Capt. GEORGE, were out yesterday, in goodly numbers and making a creditable show.

This afternoon, the Montgomery Guards, Capt JENNINGS, a new Company, make their first public parade. The Union Guards, Capt. BARRY, will also be out.

In the course of a week or two, the entire Regiment will parade for the Annual Inspection, and be reviewed by the Major and Brigadier Generals.

TEMPERANCE LECTURE.—That veteran Temperance Lecturer J. E. VINTON, widely known as the "Mohawk Dutchman" proposes to address the people of this city to-night, at Albany Hall, upon his favorite topic. Mr. VINTON is an old worker in the temperance cause, and though a plain, yet a most effective speaker. The simple announcement that he is to speak at the Albany this evening, is sufficient to attract a crowd thither.

PERSONAL.—Captain E. F. TOWNSEND, the popular and efficient commander of Company "B," Milwaukee Light Guard, returned home yesterday, bringing with him a fair young bride from the East. Last evening, the Officers and members of his Company, accompanied by HERRILL'S Cornet Band, called upon him in a body to pay their respects and tender their congratulations.

EXCELLENT CIGARS.—Lovers of the weed will find some excellent cigars, just imported, at the Walker House. We are indebted to the clever landlord, Mr. HOPKINS, for a sample, and can certify that they will bear puffing.

For the Sentinel.

An Appeal from the Teachers.

Mr. Editor, School Commissioners and "Friends of Humanity" generally:

We have a grief, a *great* grief; we wish you to understand it to be such, and offer us such sympathy and assistance as our necessities require. This is our apology for the seeming boldness with which we address you; and our *only* one.

We are a hard-working company, but we toil *cheerfully* (or *would*, were it not for the fact that we are an *unpaid* company.)

We left our duties at the close of last term, feeling "care-worn, and weary," enough; but found that though our labors had ended for a time, we were destined to have in full view the "*scene* of them" during the whole of vacation, (for the want of the "wherewith" to take us away,) unless we would submit to sell our orders at a very large discount.

This we did, for we were determined to seek, in the pure country air, the recreation and strength, which would be so indispensible to a return to our vocation. We were glad to find on the train, and in the very car which bore us away, one of our Commissioners, who on hearing our pitiful story, encouraged us with the prospect of something being done in our behalf, before our return, and said we might rest assured that either the *whole* or a *portion of* our dues, would be *forthcoming* on our reappearance in Milwaukee.

Well, here we are. We have *arrived*—and learn that though all *other* orders are given, bearing an *interest of ten per cent*, we can not only receive no pay, but have the privilege *of selling our orders at a discount of twenty per cent!* Is not this oppressive? Where is justice?

Can we, (who are mostly ladies,) and whose salaries, when received to the full amount, are barely sufficient to supply us with the comforts and decencies of life, afford to lose twenty per cent. of each month's wages?

We should be glad to pay our *board-bills*—and a *new dress, or two*, to wear to school would be very acceptable. But in our present circumstances, and with the present arrangements respecting our pay, we shall be obliged to ask the charity of our landlords, and submit to see our pupils "clothed in purple," while we, their teachers, modestly array ourselves in our simple calicoes.

We do not deem it necessary to say more.—We feel that we have relieved ourselves of a little of the "spirit" with which injustice has filled us. Our sense of justice was, perhaps, rendered more acute, during the preparation of our work, by the study of "Wayland's Moral Science"—and we recommend at least a cursory perusal of the parts under the head of "Practical Ethics," to those who have the "say" about the payment of teachers' salaries.

Sept. 15th. MANY TEACHERS.

SUPERB STATUARY.—We would call the attention of our readers to the advertisement of J. NICOLETTE, to be found in our advertising columns, who has just returned from Europe with a large and varied assortment of Statuary, which can be examined on the corner of Milwaukee and Michigan Sts., where he invites our citizens, particularly the ladies, to call and pass judgment upon his unique specimens of Art. It is unnecessary for us to say anything in Mr. N.'s behalf as an Artist, as his workmanship, during his short residence among us, which can be seen at the dining room of the Albany Hall Building, where are twelve statues of exquisite style and taste, and at J. H. ROGERS' and elsewhere, fully accord to him that credit as an Artist, which it would be in vain for us to portray an adequate conception of, through the column of our journal. Mr. N. intends making his residence among us *permanent*, provided our citizens extend to him that liberal patronage, which his artistical skill so richly merits; and judging from the past conduct of our citizens in nurturing and maintaining in our midst all that is sublime and noble in Art, we cannot but hope and predict for him a successful and prosperous business residence in our city. Give him a call, and examine his stock.

FOR SALE FOR $175.—J. S. FILLMORE has for sale a good small house on Van Buren street, with three years lease, has a soft water cistern, &c., &c.

Also for rent, a house on Van Buren street, near Mason street; rent $12 50 per month. A good brick house on Jefferson street near Mason street; rent cheap. A good frame house on Knapp street, just above Astor street; rent $14 per month. A good brick house on Main street near Mason street; rent very cheap.

MILITARY BALL AT MADISON.—We are indebted to Capt. JOHN O. BYRNE, for an invitation to the first Military Ball of the Madison Guards, a fine Company, organized at Madison during last spring. The Ball takes place on the 21st inst. We shall certainly make an effort to be there.

PROF. CHAS. DE GRATH, THE FRIEND OF MAN.—There is a perfectly innocent, soothing, and gently stimulating medicine, sold at South Eighth Street, three doors below Chestnut, Philadelphia, that may be justly called "FRIEND OF MAN." It was discovered by Professor Chas. De Grath while travelling in South America—has lately been brought out by urgent solicitations—and has cured more cases of Rheumatism, Gout, Neuralgia, Lumbago, Sciatica, Spinal and Bronchial complaints, Tic Doloreaux, Headache, Cramps, Croup, Piles, Felons, Sprains and Bruises, Cuts and Wounds, Swelled Glands, Stiff-Joints, Scrofula, Erysipelas, Sore Nipples, Swelled Breast, Womb Disorders, Salt Rheum, Canker in the mouth and stomach, Palpitation, Eruptions, Caked Breast, Quinsy, Sore Throat, Palsy, Pleurisy, Ulcers, Lock Jaw, Heart Burn, Tooth and Ear-ache, Nervousness, Costiveness, Burns, Sore Gums of teething infants, &c., than all and every other medicine in Philadelphia.

☞ It will be seen that this great remedy does not claim to cure everything, but only a CERTAIN CLASS of complaints.

☞ It is an external remedy, but sometimes is taken internally (by the Doctor's advice.) It stimulates to action the absorbents and secretions, drives pains of all kinds from the body, and reduces all swellings, in an incredible short time, as all know who have used Prof. De Grath's "Electric Oil."

Certificates are out of the question—they are lying in piles at the office—Prof. DeGrath will not publish them. Hundreds of the people are sent by recommendation, for this great remedy, and if the afflicted want to be cured, let them learn where to go.

☞ (An accidental discovery has demonstrated it to be an infallible Hair Restorative.)

39 South Eighth street,
Three doors below Chestnut street, Philadelphia.

P. S.—An experienced Physician in attendance.

N. B.—Keep the bottle well corked up, and rub quickly three times the first hour.

☞ For sale by Bosworth & Sons, and J. H. Tesch, Milwaukee; Fahnestock & Davis and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country.

LATEST NEWS!

BY MAGNETIC TELEGRAPH

The Gold Mines in Kansas.

ST. LOUIS, Sept. 15.

Prominent gentlemen from the West, fully corroborate previous statements, relative to the existence of rich gold diggings in the region of Pike's Peak. A company of one hundred persons left Kansas City last Monday, and other companies are being formed in nearly all the towns in the territory, and along the Missouri river.

Isaac Eaton, of the Kansas stage company, arrived here yesterday, for the purpose of buying mules, and making necessary arrangements to extend a stage line from Fort Riley to Pike's Peak.

LEAVENWORTH, Sept. 12

Per U. S. Express to Boonville, 15th inst.—The Pike's Peak gold excitement is a perfect mania in this place. Two Companies left for the gold region last week, and another will leave this week. A large organized company with Gen. Laramer and Judge Hemingway, Bankers, at the head, will leave about the 28th inst., with everything necessary for wintering in the mountains and mining in the spring. The reports from the diggings continue flattering.

New York Matters.

NEW YORK, Sept. 15.

The Governors of the Alms House, yesterday resolved to pay $1500 to Dr. Wm. T. G. Morton, for discovering the anæsthetic properties of sulphuric ether.

Two suspected slavers have been under surveilence here for the last three weeks; one of them managed to get off, but the other finding that she was watched has given up her intended voyage.

The Chamber of Commerce have passed resolutions protesting against the purchase by Government, of Broadway Theatre as the site for a new post office. It is said arrangements for that purpose are nearly concluded.

A North-East storm has set in, raining considerably, indications of the equinoctial storm.

Last evening Ray Tompkins and John C. Thompson, the ring leaders in the Quarantine outrages, were arrested on a charge of arson, preferred against them by Dr. Bissell, the Quarantine physician.

The steamship *Africa* sailed to-day for Liverpool. She took out 65 passengers, and $670,000 in specie. The *Borrussia* for Southampton, and Havre, and the *Hamburg* left at the same time, with the same number of passengers.

Celebration in St. Louis.

ST. LOUIS, Sept 15.

The first anniversary of the Steam Fire Department, was celebrated yesterday, by a grand parade of all the engines, seven in number, and trial exhibition of each engine. The average time occupied in raising steam was about six minutes. The average distance thrown through a hundred feet of hose, and inch and a quarter nozzle, was 230 feet. With the exception of one of these engines, are all of Latta's Patent, and of the same class. The whole affair was very creditable both to the Department and citizens.

Ohio State Fair.

SANDUSKY, Sept. 15.

Second day of the Fair. Weather continues favorable, with a refreshing shower. Receipts for the first day were $8,000. Different departments were filled up with previous entries. Everything passed off pleasantly, with the exception of the runaway of a trotter in harness, injuring, but not fatally, three persons.

No official decision has been made on the regatta. The *Collins*, of Cleveland, capsized on her home stretch. She was doing her finest when the accident occurred; breeze was most favorable that could be wished for.

A spirited trotting race came off at the course this P. M. No official report from that as yet.

Destructive Fire at Baltimore.

BALTIMORE, Sept. 16.

A serious fire occurred in the Baltimore Custom House, before daylight this morning. It caught accidentally, from a lamp in the messengers' room, which room was burnt out, as were several of the other offices, with some valuable statistic records of the exports and imports of this Port. The damage to the building is considerable, and the loss is estimated at $40,000.

Fatal Accident.

ZANESVILLE, O., Sept. 15.

Vade Wilmer, fireman on the Central road, was thrown off the engine near this city, to day. He was instantly killed.

Steamer Burned.

QUINCY, Sept. 15.

The steamer Wm. H. Denny, from St. Louis, for St. Paul, was burned near here. The boat and cargo are a total loss. The passengers and crew were saved.

NEW YORK, Sept. 15.

A steamer passed the Hook at 10 o'clock.—The sea was so high that the boatmen could not go out. It is supposed to be the *Persia.*

LANCASTER, Pa, Sept. 15.

The Lancaster County Democratic Convention commenced this morning. Dr. John K. Roff, presided, and James M. Haskins was nominated for Congress by acclamation amid great enthusiasm. He made a speech accepting the nomination.

PITTSBURGH, Sept. 15.

The National Democratic Co. Convention, to-day, nominated the ticket of the Anti-Tax Convention, but passed resolutions approving the National and State Administrations.

Maine Election.

BANGOR, ME., Sept. 15.

One hundred and ninety-one towns give Morrill 37,226; opposition 30,898, which indicates a Republican majority in the State of 10,000.—Ezra B. French, Republican, is elected to Congress, in the third district by 28 majority, with one plantation to hear from, which will probably increase it 40.

Foster, Republican, is undoubtedly elected in the 6th District. All but three plantations in Arostook Co. give Bradbury, Dem., 900 majority, but it is not enough to secure his election.—Both branches of the Legislature are largely Republican.

SYRACUSE, Sept. 15.

The Trustees of the N. Y. State Agricultural College, at Ovid, have located the buildings, and the contractors will immediately commence the work of erecting the College.

Gov. King passed though here on his way home to-day.

The Democratic State Convention assembled in this city at Weiting Hall, at 12 o'clock to day. The doors were locked, and none but those having tickets were admitted. Horatio Seymour was elected permanent President. The Convention then took a recess till 4 o'clock.

The Convention re-convened at 4 o'clock.—The entire session was occupied in the announcement of the Vice Presidents and the various committees on contested seats. The Convention took a recess until 7 1 2 o'clock.

ST. LOUIS, Sept. 14.

The new Mexican mail with dates to the 23d ult, has arrived. Capt. McLean, who reached Santa Fe on the 20th, says there is no doubt that a battle has been fought between the command of Major Brooks and the Navajo Indians.

The Indians heretofore declared they would not fight, and in case of their refusal, Major Brooks intended burning and destroying their wheat and corn fields, which if done, would doubtless cause a collision between them and the troops. The Indians have offered Brooks several thousand sheep and one thousand ponies to indemnify him for the loss of his negro.

The Santa Fe Gazette, in a long article, attempts to justify the Indians in their conduct.

Col. Sumner's command passed at Walnut Creek, moving slowly.

No Indians to be seen on the plains.

Deaths by Yellow Fever.

NEW ORLEANS, Sept. 14.

The deaths by yellow fever, for thirty hours, ending Monday noon, are 98.

Important from Washington.

WASHINGTON, Sept. 14.

Judge Bowlin, Commissioner to Paraguay, had a long interview, yesterday, with the President and Secretaries Cass and Toucey. His instructions are said to be, to demand: first, ample apology for the indignity offered to our flag; second, full indemnity for the South American Navigation Co.; and third, a ratification of the treaty formerly negotiated by Messrs. Pendleton and Schenck. Upon the refusal of either of these demands, Com. Shubrick will be called upon to enforce them.

Government have received information that Mr. Reed, our Minister to China, has made a liberal treaty with the Chinese government, similar to that made by France and England. We are to have a minister at Pekin.

Important from New York.

NEW YORK, Sept. 14.

The steamers *Fulton* and *Waterwich* are to proceed immediately from Washington to Norfolk, to take in their materials of war for operations against Paraguay. Commodore Shubrick goes out in the frigate *Niagara* early next month.

A letter to the *Tribune*, dated Jefferson, Ohio, Sept. 8th, says the great comet was seen from that place early in the morning of the 7th.

The Health Commissioners, together with Mayor Tiemann, visited Quarantine yesterday afternoon for the purpose of inspecting the ruins, and determining what portion of the former buildings to replace. They decided to repair the small pox hospital immediately, and to rebuild all the other buildings as soon as practicable. The Commissioners are fully determined to maintain their positions on the ground.

They, however, have a plan under consideration for building piers and warehouses at the west bank below the Narrows, where infected ships, with their cargoes, can be detained. This plan will meet with the views of merchants and ship owners, and also the Staten Islanders. The detachment of Marines were yesterday removed from the storehouse at Quarantine, when Richard Adams Locke, the government store-keeper, closed the government warehouse against the Quarantine officers. This was done in direct defiance to the orders of Col. Schell.

Statuary! Statuary!! Statuary!!!

OF SUPERIOR PLASTER-PARIS,

BY J. NICOLETTE,

CORNER OF MILWAUKEE & MICHIGAN STS.

I HAVE just returned from Europe with a superb and unequaled stock of STATUARY, consisting of a large and well-assorted variety of "BUSTS" of almost all of the prominent characters of the age, together with STATUES unsurpassed for neatness of finish and beauty of style by any other Artists in this country, or Europe, and also an innumerable supply of "BRACKETS," of all sizes and shapes, also, divers other *things* in my line, which it would be superfluous for me here to enumerate, all of which I would respectfully recommend to the scrutiny of the citizens of Milwaukee. My prices are easy, and such as will correspond with the times. I would have the public understand that I hold myself ready and willing to impart to visitors whatever of information may be necessary, and therefore invite the citizens of Milwaukee (male and female) to give me a call and examine my stock. J. NICOLETTE.

P. S.—I will also devote my attention to the *taking of likenesses* of the *living* and *dead*, and of *bronzing and repairing* and *mould-making* of all kinds, at rates to please. [sep16 h206d2w] J. N.

Announce that they have secured the Entire

Atlantic Telegraph Submarine

CABLE!

Now on board the U. S. Frigate, Niagara.

IN ORDER to place it within the reach of all classes, and that every family in the United States may possess a specimen of this wonderful mechanical curiosity, they propose to cut the Cable into pieces of four inches in length, and mount them neatly with brass ferrules.

Each piece will be accompanied with a copy-righted fac simile certificate of

CYRUS W. FIELD, Esq.,

that it is cut from the genuine cable. Twenty miles of it have actually been submerged and taken up from the bottom of the Ocean. This will be first sold in precisely the condition in which the great Cable now lies in the bed of the Atlantic.

Orders will be received from dealers and others for not less than 100 pieces at a time, at $25 per hundred. Retail price 50 cents each.

The Cable will also be sold in the condition in which it came from the Niagara, in lengths of 40 feet and over at 62½ cents per foot. Smaller quantities at $1 per foot.

Each order must be accompanied with the money, in funds current in New York, as it will not be possible to open accounts.

CAUTION.

Attention is respectfully invited to the following letter from CYRUS W. FIELD, Esq.

NEW YORK, Aug. 24th, 1858.

Messrs. TIFFANY & Co.—Gentlemen: At your request, and in justice to you I am bound to state, that I disposed of the entire balance of the Atlantic Cable, on the U. S. steam frigate "Niagara," to your firm, and that if any other party claims to have any portion thereof, it must either have been procured from you, or from the small specimens which were distributed on board before the Cable was laid, in which case the quantity is too small to be worthy of notice.

There is a peculiar interest attached to the Cable which you have bought—twenty miles of it were actually submerged in the ocean, and recovered, while through all of it the electric signals were being transmitted during the whole of the time occupied in laying the cable.

Of course any quantity can be manufactured in England, and many specimens have been circulated in this country, but to few, if any of these, attaches the peculiar value which the cable purchased by you possesses, from the fact they were part and parcel of the cable which is now actually laid.

I remain gentlemen, very truly your friend,
sept14h195d1m3taw CYRUS W. FIELD.

REPUBLICAN NOMINATIONS.

FOR CONGRESS, FIRST DISTRICT,
JOHN F. POTTER.
SECOND DISTRICT,
CADWALLADER C. WASHBURNE.
THIRD DISTRICT.
CHARLES BILLINGHURST.

Republican State Convention.

A REPUBLICAN STATE CONVENTION will be held at the Assembly Hall in the city of Madison, on Tuesday the 4th day of October next, at 2 o'clock P. M.

The objects of the Convention are to confer generally upon the interests and welfare of the party; and take all needful measures to insure its harmonious and vigorous action, and the perfection of its State and local organization, and also such other matters as may properly come before it.

It is recommended that each Assembly District send two delegates; and it is hoped that good and true Republicans from all parts of the State will attend and aid the Convention by their presence and counsel.

Judge Dunn a "National Democrat."

The reason for the suspicious silence of the Democratic Congressional Convention for the Second District, in the matter of a platform, has at length transpired. In that District, as elsewhere throughout the state, there are Lecompton and Anti-Lecompton, Buchanan and Douglas men, in the party ranks. Even with a united vote they do not look for success, while, with divided forces, they know that defeat would be overwhelming. Hence when they nominated Judge DUNN, the Convention set up no platform, but left the Judge to run on his own merits and catch, if he could, the vote of both factions.

This plan, however, is likely to fail, through the indiscretion of some over-zealous friend of Judge DUNN, who has been writing to the Chicago *Herald* to define his position. The *Herald* is the Administration organ in Chicago, and is bitter in its denunciations of DOUGLAS. This is what the correspondent in question, who writes under date of "PRAIRIE DU CHIEN, Sept. 10th," says of Judge DUNN and Senator DOUGLAS:

Judge Dunn *is a National Democrat in every sense of the word*, and we all regard his nomination as equivalent to his election.

* * * * * * *

Judge DOUGLAS has no admirers—at least very few, here. The Democrats cannot sympathize with any man who professes to be a Democrat, and yet wars against the Administration, and votes with its enemies.

The singular course which he has pursued has excited nothing but contempt in the mind of every reasonable man, especially those who have stood aloof from politics, and have taken no farther interest than to read a report of his speeches and acts during the past eight months. His vacillating course has excited disgust in the minds of men who were once his most devoted worshippers.

That Judge DUNN was a staunch advocate of the Lecompton iniquity, of the Dred Scott decision, of the Fugitive Slave act, and of all the other incidents of that favorite Democratic Institution, SLAVERY, we knew before. Even the *News* frankly concedes this much. But we did not know that he was also to be ranked as a BUCHANAN man and as opposed to the principles and course of Senator DOUGLAS. Nor, we suspect, did the party leaders intend it to be known in the Second District. Their plan was to keep *mum* in reference to Judge DUNN's BUCHANAN proclivities, and run in an Administration man on the sly, if they could, by the help of DOUGLAS votes. The prompt claim, however, set up in the Chicago *Herald*, to Judge DUNN as "a National Democrat (i. e. a BUCHANAN man) in every sense of the word" will doubtless have the good effect of arousing the electors of the Second District to a realizing sense of *his* position and *their* duty.

Keep it Before the People

That Judge Potter introduced in the Assembly the corrupt Land Grab bill of 1856 which position he sought that he might be considered an especial friend of the measure, and to secure his election to Congress—*out of this act* grew all the subsequent corruptions of that year that have disgraced the State throughout the Union. The paternity of all this, Judge Potter assumed by the introduction of the *infamous Land Grab bill.—Madison Argus.*

The *Argus* is perfectly welcome to "keep before the People" as many such paragraphs as it pleases. "The People" know well enough that Judge POTTER introduced, advocated and was instrumental in carrying through the Assembly, the bill granting the Public Lands to the La Crosse R. R. Company. He did so, in compliance with the universal wish of his constituents, in obedience to the dictates of his own judgment, and in the honest conviction, shared in by nine-tenths of the People of the State, that it was the best possible disposition to be made of the Land Grant.

But Judge POTTER had neither art, nor part in "the subsequent corruptions of that year," which "grew out of this act," and rendered it "infamous." The *Argus*, though good at hard swearing, will try in vain to swear this bantling upon him. Its "paternity" is too well known; its "family likeness" too marked. The blindest must see that it is a legitimate scion of "the Forty" stock. And if any doubt, they have but to read the history of its birth, parentage, &c., in the report of the Investigating Committee, to be abundantly satisfied.

Honor to whom Honor is Due.

The *Sentinel* denies the charges, which we have preferred against the leading republicans of this Congressional district, who in the capacity of members of the legislature, directors of the La Crosse Railroad, and friends of the measure, engineered the land grant bill through the legislature. Our statements were based upon the proceedings of the legislature, the report of the investigating committee, and the admissions of the *Sentinel* clique, when they were claiming credit for the passage of the bill.—*News of yesterday*

Such is the poor apology which the *News* offers in palliation of its gross, flagrant and wilful fabrications. But the excuse is of a piece with the rest. There is as little truth in that, as in the original falsehood. The "statements" of the *News*, instead of being "based" upon anything, were deliberately manufactured out of whole cloth. They were lies every one of them, and were doubtless known to be such by the *News* when it gave them currency.

HOLD, ENOUGH!—The Boston *Courier* will be remembered as the home organ of Daniel Webster for many years, and as always a faithful and able exponent of whig principles. Since the dissolution of that party it has maintained an independent position, affiliating with no party. Nevertheless, it has been out-spoken upon all questions of public importance, always maintaining a conservative view. Latterly, however, it has become disgusted with black republicanism. It has seen too much of its working, and cries, "hold, enough!" After the nomination of the democratic ticket last week it came out strongly in its favor, &c., &c.—*News.*

To all of which the only reply necessary is, that the Boston *Courier* specially represents that select circle of Whigs of which Mr. CHOATE is a fine sample, and that from the very first organization of the Republican Party it has been a bitter and unrelenting opponent, readily "affiliating" with any and every faction that would make common cause against the Republicans.—The *News* has got hold of a very old story.

For the Sentinel.

How it Looks Abroad.

MR. EDITOR:—Will you please give a place in the *Sentinel* to the following pointed, but sincere article, which appeared in the New York *Times* of the 11th inst. We have had so much public rascality and mismanagement in this State, that our people have become familiar with it, and too heedless of the deep injury it has inflicted abroad, upon the character and business relations of the State. There is scarce one of our citizens who has been east this season, that has not had occasion during his absence to hang his head in very shame for the bad reputation which our State has acquired. That the management of our State funds, our School and University funds, our funds for the construction of benevolent institutions, such as the Lunatic Asylum, donations given the State for rail road and other improvement purposes, trust-funds, such as have been obtained for shares in Banks and Rail Roads, have manifested a frightful disregard of the golden rule, and of the plainest precepts of moral integrity, no one will deny.

Now when most of these things which were mere suspicions a couple of years ago, are exposed and found out, and have become established facts in the history of the State, to its burning disgrace and the disgrace of the individuals who have figured in them, what must be thought of our State abroad when it comes to be known in New York and elsewhere, that the leading characters in these reprehensible and damaging transactions, are permitted to occupy positions in our nominating Conventions—that they control many of the nominations—some of them are candidates for responsible public positions—that candidates for seats in the National Legislature are soliciting votes and strutting about the country, apparently unconscious of personal degradation, whose palms have been soiled and pockets stuffed with over half a hundred thousand dollars of corruption bonds.—What character would Wisconsin have left it, in the United States and in Europe—for the news of our crimes is well known in both Great Britain and Germany—should such nominations be ratified by the people at the polls? Our Legislature and our Courts have proved up and established the existence of the corruptions and robberies that have been perpetrated; to fill to overflowing the cup of infamy, is it necessary for the people to do anything more than to endorse the corruptionists and robbers with a popular vote?

A MERCHANT.

JONATHAN WILDS IN WISCONSIN.—The great La Crosse and Milwaukee Railroad swindle has received a touch from the hands of the directors within the last few days, which was all that it wanted to convert it into a masterpiece of the art of impudent fraud. They commenced by doing what has never been attempted since the days of Jugurtha—buying up the whole government of a sovereign State at so much a head, with other people's money. Bribing a Governor and legislators with money out of one's own pocket, is a tolerably bare-faced and wicked operation, but bribing them with other people's money, placed in the briber's hands for the sole object of building a railroad, bears marks of genius about it which Vidocq himself might be proud of. They went even further than this, and defended what they had done as an eminently just and moral transaction. The leading actor in the affair declared with inimitable *naivete* that he could not see for the life of him what there was wrong about it, and was of opinion that a vote given in consideration of $5,000 was any day as good as a vote given in obedience to one's conscience. This piece of impudence has now for some months been attracting the public admiration, but within the last month it has been followed by another which throws it completely in the shade. The directors actually held a meeting, at which they resolved to call upon every one of the corrupt recipients of the Company's bonds, to return the same, telling each of them that "he would no doubt see the importance of doing so."

We presume most of the replies to this cool request have been variations upon the air of "Don't you wish you may get it," but the request itself is one of which only veritable artists, whose brains the sacred fire has warmed, would ever think of propounding. The work is now complete, and deserves to be embalmed in the memory of a grateful country, as the happiest combination of knavery and impudence upon which any actor of either ancient or modern times has ever lighted. The manner in which the directors recover their virtue, and the almost indignant rebuke which they administer to these accomplices under cover of an official invitation to "let them have those bonds again," is too good to let slide into oblivion. There is no species of literature, from the heroic poem to the tract for Southern circulation at four cents the dozen, in which it might not be used with the happiest effects. Few even of the greatest of reformed drunkards have ever come up out of so deep a gutter, with an air of such chastened penitence, as the La Crosse and Milwaukee Railroad directors wear in demanding restitution of the property of the stockholders from their confederates in the late great swindle. Next to wishing to see the whole party in the State Prison, sealing their conversion to common honesty by touching devotion to the useful and laudable pursuits of stone-breaking and oakum-picking, we would sincerely wish to have their mental and moral experience carefully compiled, and preserved for the encouragement of all abandoned sinners and reckless embezzlers in time coming.

A certain Mr. Woodie, who, it appears, partook of the plunder, and holds some of the bonds, has replied rather tartly, but with impudence worthy of their own, to their request to return them, in a letter which we published recently. He declares he does not "see the importance" of complying with their demand, but has sent for Lord Rosse's telescope, and will again examine it and communicate the result, and in the meantime, that they had better defer all further action in the premises. That the Directors were simple enough to expect any better answer, we can hardly believe, considering their antecedents, and are reluctantly driven to the conclusion that they and Woodie are funny dogs, who will have their joke, and have all this time been playing off a little farce for the stultification of the wretched and dunderheaded public. Woodie, we all know, has no more right to the bonds he holds than to the goods in the stockholders' stores; but a man who will accept bonds under such circumstances will keep them.

Let those who tempted him to take them, in the first instance, repent ever so much, we, for our part, sincerely hope that neither he, nor any of his confederates will ever disgorge a cent of the spoil. We should be sorry to have the people of Wisconsin cheated by any such device into the notion that all the evil of frauds like this lies in the pecuniary loss, and that restitution once made, the *status quo* is restored. The worst of such transactions is the stab they administer to public morality, the shame they bring on the nation, the distrust they inspire in every relation between man and man, which is not watched over by a policeman or a jailor. The moral effect of such gigantic frauds would be spoiled by the hasty repentance of the swindlers. Now that the world knows that Woodie and his colleagues have got La Crosse and Milwaukee bonds, and how they got them, we hope they will keep them and use them in such fashion as to make the shareholders smart keenly for committing their property into the hands of such unscrupulous speculators as the Directors.

DUNN AND WASHBURNE COMPARED.—The Lancaster *Herald*, published in Grant county, thus compares the opinions of Judge DUNN and Mr. WASHBURNE on the prominent issues of the Congressional canvass:

Judge DUNN is conscientiously a pro-slavery man, from education and political associations—otherwise, he would now hold an opposite faith, because no honest man educated where all are free and having free associates can tolerate human bondage. If elected he will honestly aim to restore that equilibrium between freedom and slavery which has become lost to the South.—WASHBURNE is devotedly anti-slavery—hates oppression the more because educated where all are free men. If elected, he will honestly work to stop slavery going any further. Their views are indeed wide apart—DUNN representing the Southern policy and WASHBURNE the Northern. DUNN calls himself a national man because slavery claims to be national; WASHBURNE claims to be also a national man because freedom is national and slavery sectional—it being plain to all that slavery and freedom cannot both be national. Who is right? Let the people judge!

☞ The Stevens Point *Pinery* opens the campaign by a covert assault upon Beriah Brown. The Editor of the *Pinery* is a federal office holder, but we do not think he need cherish fears of losing his office, even if he should give the Democratic candidate a warm and cordial support.—*Madison Argus.*

The *Pinery*, like a loyal BUCHANAN organ, justly complains that the "cold shoulder" was purposely given to the Administration by the Democratic Convention in this District. But so it was in the other two. Will the *Pinery* for that reason oppose DUNN and LARRABEE?

A Sharp Letter from Judge Breese.

He Pitcheth into the Douglas-Worshippers—He is a Candidate for the U. S. Senate.

Judge Breese sends the following letter intended to define his position. It is published in accordance with his request:

CARLYLE, Sept. 7, 1858.

Rev. W. F. Boyakin, editor of the Belleville Democrat:

DEAR SIR: I demand as a right to know who requested you to say, as you have said in an editorial of your paper of the 4th inst., that "Judge Breese is not, nor will he be a candidate for the United States Senate in opposition to Mr. Douglas; and all that has been said in reference to his stumping the State against the Democratic party, is without any foundation whatever."

The article is artfully prepared, but it will not deceive, if such was its object.

It never has been said in any paper, or elsewhere, by anybody, that I intended to stump the State against the Democratic party; hence, your *disclaimer* was wholly unnecessary. You might have swore, on your friend Caspar Thiell's Bible, that I never would be found in opposition to the great Democratic party of the nation, whose hardest battles I have helped to fight and win for more than a quarter of a century. You might take your oath of *that* without fear.

But I think, friend Boyakin, your ideas of Democracy and mine differ most essentially. You will pardon me for saying that yours seem to be concentrated in one man, whilst mine embrace great principles. Yours seem to tend to the disruption and debauchery of the great party; mine, to its conservation and purity. Yours, if carried out, will annihilate it; mine, will restore it to its pristine vigor.

What position I may consider it my duty to assume in this contest now so fiercely waged against the Democracy of the nation, its cherished and time-honored principles, and fiercer still against him to whom that portion of the nation has committed the power, will depend on circumstances.

Of one thing you may be assured, and my past life is the guarantee, that I will not be silent or inactive when I see, or think I see, that great party in danger from conspirators within its own bosom, or from foes without. The last are least to be dreaded, as their attacks are open, in the sunlight, and manly. The conspirator deals his blows secretly; he gets up false issues for the occasion, under cover of which he makes his attack. The species of warfare is now in progress, and I am surprised you do not see it.

They may destroy the citadel, but the foundations will remain; they are everlasting; "the eternal years of God are theirs," and on them the national edifice will be rebuilt, attracting the masses by the beauty of its design, the solidity of its structure, and by the pure purposes to which it will again be dedicated. It will afford us shelter from selfish and intractable ambition, and around its altars will be found none but true and faithful worshippers.

Lend a helping hand to save the present from the assaults of the destroyer, to which you cannot and ought not to be insensible. Thus shall you be honored of men. Thus shall you become a bright light and a safe guide for our people.—Thus only can you preserve the principles you claim to reverence.

I hope you will publish this letter and send me the name of the person who gave the authority you have exercised in regard to me and my name. Very truly and respectfully,

Your obedient servant.
SIDNEY BREESE.

ST. CROIX AND SUPERIOR R. R. CERTIFICATES.—We alluded briefly, in our yesterday's issue, to the statement that Governor Randall had given his certificate to the St. Croix and Sup. R. R. Co., of the location of the line of Railroad from the terminus of the La Crosse line to Superior and Bayfield. However desirable it may seem that the lands reserved along the proposed railroad be still reserved to the State, there are nevertheless large numbers of people who desire that they may be restored to market; and the relations between the St. C. & Sup. R. R. Co., and the La Crosse & Mil. R. R. Co.—the President of the latter company having protested at Washington against the approval of the line surveyed and mapped by the other company—makes the duty of the Governor in the premises a still more delicate one.

We learn that the Governor has not thought himself at liberty to give the St. Croix & Superior Railroad Company such a certificate as was asked for; but, on receiving official assurance of the position of the President of that Company, he has given the following certificate to wit:

EXECUTIVE OFFICE, }
MADISON, Sept. 6, '58. }

I hereby certify that John Lockwood, Esq., as President of the St. Croix and Lake Superior R. R. Co., has reported to me the location and designation of a route and line of a railroad from St. Croix Lake or River to the West end of Lake Superior and to Bayfield, as appears by two maps or plats of such road, the one filed in my office on the 4th day of February, A. D. 1858, and the second on the 7th day of July, A. D. 1858, copies of which have been deposited in the office of the Commissioner of the General Land Office at Washington, D. C.

In testimony whereof, &c.,
ALEX. W. RANDALL,

A MAN BEATEN TO DEATH BY HIS WIFE AND HER PARAMOUR—$500 OFFERED FOR THEIR ARREST.—We learn by passengers over the Covington and Lexington Railway last night, that a shocking murder took place at Tait's Creek, in Madison county, Kentucky, on Wednesday evening last. It appears that a man named Wade, and his wife Sarah Wade, have been living very unhappily together, on account of an alleged intimacy existing between Mrs. Wade and a man named William R. Margrave, *alias* Rice. On Wednesday evening Wade returned home and found Margrave at his house. Wade demanded that he should absent himself and never again return. Mrs. Wade took sides with Margrave, and both commenced a tirade of abuse on Wade; to which the latter replied, using very severe language. From high words the parties came to blows, and Mrs Wade and Margrave, with bar-reratives in their hands beat. Wade to death.—The murderers left their victim lifeless upon the floor, and packing up all the clothing they wanted, eloped to parts unknown. A colored boy, who witnessed the conflict, gave the alarm, and the neighbors far and near were soon collected. Wade was weltering in a pool of blood, and was beaten and cut in a most shocking manner.—Pursuit was made for the murderers, and a description has been sent to the police of this city, but neither had been arrested at latest accounts. The affair has created considerable excitement at Tait's Creek, where Mr. Wade was esteemed as a worthy citizen, and Margrave regarded as a dangerous man; this being the third murder he has committed. We understand that the murderers have been traced to within thirty miles of Covington.—*Cincinnati Gazette, 11th.*

AN INCIDENT WORTHY OF RECORD.—Every reader is familiar with the story of the French Corporal who, while on duty, obeyed his orders to the letter and would not even let the Emperor Napoleon I. pass. The Paris correspondent of the New York *Journal of Commerce* relates the following incident:

In one of the late excursions of the Emperor in the direction of Malhausen, at a station near Nangis, a circumstance occurred which has some claim to be recorded. The old soldiers who had received the medal of St. Helena, ranged themselves near, and attracted his attention. A veteran showed the decoration on his breast of the Legion of Honor, and on his hat a sheet of white paper with something written in large characters; he proved to be the sentinel who, in the campaign of Napoleon I. of 1809, in upper Austria, being placed before the Imperial habitation, with absolute orders to let no man enter, refused to allow the Emperor himself to pass, of whose person he was ignorant. Napoleon insisted; the other cried "*on ne passe pas*, and if you advance a step, I'll stick my bayonet in to your belly; even if you were the little corporal himself you should not pass." Some of the officers of the staff came out and explained the case to the sentinel; in a few minutes he was summoned to appear before Napoleon; the latter simply said—"Put this ribbon in your button hole; I give you the cross." Coluche, the soldier, was born in the township of Nangis, in 1780; he entered the army in his youth as a conscript; he served under Napoleon in most of the great campaigns until 1815; he was present in the great battles, and was severely wounded at Waterloo; he finally earned his living at home, in his extreme age, as a grain-thrasher. It was the Mayor of Nangis who pinned the paper to his hat, certifying the identity. What he sadly needed—a small pension—has been bestowed by Napoleon III.

DRY WEATHER IN FRANCE.—Our Paris correspondent informs us that the river Seine on the 26th ultimo was so low that it could be crossed on foot, which is the first time for one hundred and fifty-nine years that such a thing has happened. Five hundred canal boats with two hundred and forty millions of freight had been aground at St. Quentin. The government, however, immediately ordered a trench to be cut to the nearest river, a distance of twelve miles, in order to feed the canal, and at last accounts navigation was again active.—*Boston Traveller, Sept. 10.*

THE RECEIPTS OF EUROPEAN SUBMARINE CABLES.—At a late meeting in London of the Submarine Telegraph to various parts of the Continent, the receipts for despatches for the previous six months were stated at 62,500. Included in the expenses was the repair of a very serious break in the Belgian cable, at a cost of nearly $11,000, notwithstanding which a dividend of eight per cent for the year was declared, leaving a balance of about $2500.

Prairie du Chien and Mankato Railroad.

Its Importance—Connections—The Route—Its Feasibility—The Country through which it Passes, &c., &c.

EDITORS PRAIRIE DU CHIEN LEADER—*Gentlemen:*—If your columns are open for the explanation and encouragement of a project, the success of which is intimately connected with the future wealth and prosperity of Prairie du Chien, I should be pleased to avail myself of them.

Up to the present time Prairie du Chien has occupied the most northerly position on the Mississippi that has been reached by a railroad, and has enjoyed the benefits of the entire Up River trade without molestation. The opening of the La Crosse R. R., connecting La Crosse with Milwaukee, by about the same number of miles of Railroad, must, as a matter of course, bring another competitor into the field to divide the business, and take the lion's share of that which has heretofore been tributary to Prairie du Chien.—No one, I presume, is prepared to deny that, to a greater or less extent, the opening of the La Crosse road will operate as an injury to your future prospects. Some effort, therefore, should be made on the part of your citizens, one and all, to help the people of Allamakee, Winneshiek, Howard, and Mitchell counties, in the State of Iowa, to push forward to an early completion the "Prairie du Chien and Mankato Railroad"—Eighty-eight miles from the Milwaukee & Mississippi Railroad depot, this route connects with the southern terminus of the Minneapolis and Cedar Valley Railroad, and thus completes an iron track from Prairie du Chien to St. Paul.

The Prairie du Chien and Mankato Rail Road Company was organized on the 15th day of Oct. 1857, and the valley of Paint Creek selected as the most feasible route by which the summit level could be reached. The direction of the main track of the M. & M. R. R., indicates the notch in the Bluffs distant about four miles from the depot, as the point at which it will cross the river. The valley of Paint Creek has been found by actual surveys which have been diligently prosecuted, both last fall and during the present summer, to possess more favorable features for the construction of a railroad than any other, that has been surveyed, for a distance of 200 miles, both up and down the Mississippi. Opposite the mouth of Paint Creek occurs the greatest contraction of the river, it being confined to one bed, and that but 2100 feet wide. The maximum grade will not exceed 45 feet per mile, and there will not be much of that. The curvature is comparatively light and the route through the valley admits of several long straight lines. There is little or no rock work, and the earth work is by no means heavy. The strongest freshets of this season have not overflown the banks of the creek, and its general straight direction saves the necessity of crossing often; so that bridging is but a mere item.

Of the country all along this line too much cannot be said. Ten miles from the river is located the flourishing village of Watertown, having a choice water power, a well managed grist and saw mill, and the best hotel that can be found for miles around. Twelve miles beyond is Waukon, the county seat of Allamakee county, one of the most thriving points in Northern Iowa, and surrounded by a farming country that is hard to beat, as indeed is the enterprise of her citizens, who are determined not to be outdone on the Railroad question. At this point is reached the summit level. From thence two lines have been surveyed, one running through Decorah, and the other a short distance south, both of which are found to be entirely practicable. Passing on west of Decorah the line runs through Burr Oak, Vernon Springs, New Oregon, Forest City and Howard Centre to Otranto, where the connection is made with the Cedar Valley Road.

It is not necessary to discuss further the perfect feasibility of this route, nor the ability of the country to support it; suffice it, for the present, to say that it is every way a desirable one, and as a connecting link between two important roads cannot be too highly estimated. Build the Prairie du Chien and Mankato road, and look at the result. The distance from St. Paul to Chicago, via the Milwaukee & Mississippi, Prairie du Chien & Mankato, and Minneapolis & Cedar Valley Railroads, is within a fraction of 410 miles—with only two connections and one ferry; while, on the other hand, the distance from St. Paul to Chicago, via Minneapolis & Cedar Valley, Root River Valley, Milwaukee & La Crosse, and Chicago and Milwaukee Rail Roads, is as near as may be 460 miles—requiring three connections, one Ferry, and two miles of staging in Milwaukee. By this we show that the route through Prairie du Chien is 20 miles the shortest, has one less connection and no staging. The distance between St Paul and Milwaukee is now but 30 miles in favor of the Northern route, and this can be reduced to the merest fraction by a straight connection between Madison and Milwaukee.

On the southern route via Prairie du Chien the maximum grade is 45 feet per mile, and that for a very short distance, the curvature is very light, and the entire road can be run at the highest speed. On the Northern route, via La Crosse the grades are of a heavy character, in many instances upwards of 60 feet per mile;—but it is hardly necessary to draw a comparison of the road up the Lemonwier Valley, across a heavy summit, through the tunnel, and down to La Crosse, with the magnificent track through the valley of the Wisconsin; nor is it necessary to say one word in favor of the superiority of the valley of Paint Creek over that of the Root River.

The Milwaukee and Mississippi Railroad occupies a position that is, and always will be second to no other in the State; and Prairie du Chien has the Point on the Mississippi River, towards which will flow the trade and travel of 1200 miles of Minnesota Land Grant Roads now under the process of construction, provided her enterprising citizens will step out and do what they can towards building the Prairie du Chien and Mankato Railroad.

Truly Yours,
GEO. EVERSTON WOODWARD,
Chief Engineer.

Three Hundred Mormon Women Renouncing the Faith.

By the arrival of a man named Herbert Brandon, we have been furnished with the following information from Salt Lake:

"I left (says our informant) Camp Scott on the 18th of June. The Mormon excitement had entirely abated. Several Mormon trains had passed Camp Scott on their way to the States.

They stated, while camped at the above place, that they would not have been permitted to leave or they would have abandoned Salt Lake long ago.

On being questioned as to their determination to resist the entrance of the United States troops, they replied that the major part of the Mormons only awaited the entrance of the troops in order to effect their escape from Brigham Young.

On their arrival at Camp Scott, they were minus the common necessaries of life. On being asked the cause of their destitute condition, they stated that Brigham Young had relented from his determination to resist the troops, he had ordered them to deposit what provisions they had in the storehouse, but as soon as he made known his intention of going south, those of the Mormons who refused to go were deprived of all, and they could get nothing for their outfit. They also stated, that but for the interference of Governor Cumming the destroying angel would have forced them away, and they did succeed, in instances, in driving away several women. I came down with two Mormon trains from Camp Scott, numbering about 300 persons, who were chiefly English and Scotch; and the principal topic of their conversation throughout, was the absurdity of Mormonism and its principles. They were all unanimous in their denunciations of Brigham Young and his apostates, and talked of his assassination by the Mormons who remained at Fort Scott as a sure event. They have all (without exception) become disgusted with Mormonism and renounced it, and expressed their determination from henceforth to use all their efforts for the total annihilation of Mormonism.

They express their desire to return to their native countries and would if they had the means to do so, in order that they might be instrumental in saving others from the baneful influence of Mormonism. On their arrival at Plattsmouth, on the Missouri river, they had calculated to cross over to Council Bluffs; but the bad condition of the roads in Iowa changed their resolve, and they are now dispersing themselves in Kansas and Nebraska Territories.

Mr. Brandon gave us many other interesting particulars, from which we conclude that a speedy dissolution awaits the community of Latter Day saints. Many of the women, although they went to Utah innocent and pure, we judge, are very unlikely to lead a pure, and exemplary life in the future. They have been debased until they are likely to abandon themselves to the loathsome life of prostitution.

STATE FAIR ITEMS.—Hon. Henry Barnard, of Connecticut, Chancellor elect of the State University, is to be here during the State Fair; and it is probable that he will deliver an address some time during the week, in addition to the regular address by Hon. Cassius M. Clay. His subject, we understand, is, "The Culture of the Soul and the Soil."

Some uncertainty has existed in regard to the attendance of Mr. Rarey, the celebrated Horse Tamer, upon the State Fair, but we are glad to be able to announce that he purposes coming, without fail. Mr. D. J. Powers, the Secretary of the State Agricultural Society, met him last week at the St. Louis Fair, and there received assurances from him personally, to this effect.—*Madison State Journal.*

GRAIN CLEANER & SEPARATOR
HORTON'S PATENT
G. B. BINGHAM & BRO.,
Sole Manufacturers in Wisconsin.
THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis. feb10f976d1y

Quaker City Double Lock, Tight Stitch,
$20 *SEWING MACHINE!*
ALL other Cheap Machines take only the single thread chain stitch. This takes the same two thread stitch as the most expensive ones now in use. Its work will not rip, though every 3d stitch be cut. The Machine is simple easily adjusted, and not likely to get out of order. Sews from two common spools, does coarse and fine work perfectly, by simply changing the needle and thread. They will stitch, hem and gather. This is the only machine sewing with two threads, except one, in the world for less than $100. We invite all who wish a machine to do any kind of work done by machinery, to examine ours. Samples of work sent by mail on receipt of a stamp. Machines sent to persons who never saw them, and are used successfully after a few hours' practice. Full printed instructions given. Call at

THE ATLANTIC TELEGRAPH.

BY T. D. WINCHELL.

The great Atlantic Telegraph braid
With all its twistings and turnings is *laid*,
And is not a *myth*, like the show mermaid,
Which was got up by one who made such his trade.
While thousands were of their quarters relieved
That success in humbugging might be achieved
And people deceived—
Who'd rather have died than not have believed;
At all of which folly "the judicious grieved."
The great Atlantic Telegraph!
This is "the Lion" to which we quail,
Which project excited a sneering laugh
Among those who were too knowing by half,
Is now a fixed fact like the tall Giraffe,
And is as tame and mild as a cow and her calf.
We can ascertain, now, as I am a sinner
What the Queen has had for her dinner,
Four hours before she knows herself
What sort of viands will garnish the delf
Of her royal and most magnificent table;
This can be told by the Atlantic cable,
And more, much more, than to tell I am able,
And queerer, too, than the queerest fable,
Or a flying visit from the tower of Babel,
And to hear it gabble from out of its gable,
Or a snow storm dressed in a suit of sable.
On reaching Great Britain, four hours at least
We gain on time—and by the girth—
Following the telegraph going east—
That is, if we *had* one belting the earth
We would soon get back to Adam at last
By thus unwinding the coil of the past.
This is a view that may be of some worth
To those who are easily roused to mirth.

Well, the world's ideas are connected at last,
And through the Atlantic the cable is passed
"Way down in a valley" so dark and so wet thro' it,
We wonder intelligence could ever get through it;
The ground is quite moist between all the stations,
For it goes through a land of very wet nations.
'T was broken the first and second time trying
And the vessels were sent away *kiting* and *flying*
By Indignant Ocean a perpetual motion;
A wonderful genius and power in his way
Who angry at mortal's ambitious sway
Gave a blasting, commingling, compelling commotion,
And the storm clouds and storm sea so mixed up together,
As made what the sailors call very bad weather,
The gallant NIAGARA rode it out like a duck
And breasted the *fiery*, watery surge
But the bold AGAMEMNON, by far less agile,
And who could not quite come the NIAGARA's style
Got into worse luck and made more of a splurge,
While Neptune's shell band kept a horrible dirge,
Threatening, each instant, an awful submerge,
But they rode out the storm with true British pluck,
Being *rale grit* (a term used by *Knuck*)
And, retracing their *steps* when the gale had *gin out*
They started again on the *telegraph route;*
And splicing their great bridge of thought, they troll
Through the pathless waste to the distant goal;
Where triumphs await the skillful and bold;
Triumphs the like of which never were told;
A triumph of skill to perpetuate peace;
With a hope that the world's happiness will increase
And e'er long human oppression shall cease.
A triumph that beats the gathering of gold
For it tells of no hearthstones nor hearts made cold,
A triumph unequalled in age or clime,
Since that over death in our Saviour's time.

Correspondence of the N. Y. Journal of Commerce.

The Fashions.

PARIS, Aug. 19, 1858.

Our chronicles of the modes give length and florid descriptions of the richness and brilliancy of the toilettes of the ladies who graced by their presence the festivities at Cherbourg, Brest, and other cities of Normany and Brittany, honored by the late visit of their Imperial Majesties.—The costumes of the Empress were remarkable on all occasions for good taste and sumptuousness. At the breakfast given by the Queen of England on board her yacht, the Empress wore a thin white muslin, trimmed with three embroidered flounces, a pale green silk shawl, decorated with two deep black lace flounces, and a white lace and crape bonnet with green ornaments. The Imperial costume (devised and made by Madame Fauvet, 4 Rue de Menars,) for the state ball at Cherbourg, was a masterpiece of French millinery. The white silk robe was embroidered with bunches of flowers in colors and gold, and festooned with lace of the rarest texture. Her Majesty wore on her head the magnificent diadem of brilliants and emeralds which figured at the Universal Exhibition, with necklace, boquet de corsage, and bracelets to match. On an occasion of official reception, her costume consisted of a pearl grey silk dress, lavishly trimmed with black lace, and a white crape bonnet decorated with roses. On the journeys her Majesty was covered with a straw-colored wrapper, (which protected her from the dust,) and wore a hat and feathers according to the manners and customs of traveling ladies in England, who thus provokingly hide their pretty faces.

The variety, gay coloring and picturesque forms of the costumes of the peasantry of Normandy, and Brittany, the red petticoats, scarcely descending below the knees, the absence of all volume of skirt, the hair gathered in a knot at the top of the head and surmounted by a high cap, starched, and stiff as buckram, formed a curious contrast with the trailing and voluminous skirts, the hair falling low on the back of the head, the almost invisible bonnet and the light and delicate colors which compose the toilette of a modern lady of fashion. The country matrons and the high dames were reciprocally an object of curious inspection; and both added to the originality and beauty of the *coup d'œil* at the magnificent spectacle of the naval and land entertainments at Cherbourg. The pocket handkerchief which the Empress carried at the grand ball was one of Chapron's, (11 Rue de la Paix,) with beautiful lace ornaments, a rare mixture of embroidery, and the lace as fine as a gossamer web. A lace dress trimming was presented by the city of Caen to the Empress, which is perhaps the most exquisite specimen of that manufacture that France has ever produced. The pattern is of sea shells blended with exquisite flowers, so much in relief that they appear detached from the tissue, which combines strength with ordinary fineness. This trimming, together with the shawl of no less splendid design and execution, was handed to her Majesty in a corbeille, embroidered with the arms of Caen in gold and decorated with precious specimens of black and white lace.

The *casaque basquine*, whether the material be black taffetas, quilting, white jaconet, or colored muslin, is the shape decidedly preferred for the outer garment. It is even worn over double skirts, and is very convenient in warm weather, the toilet being complete without either shawl or mantle. Clear muslin burnous are also worn, and are edged with a bouillonne or hem, lined with a colored ribbon; they have a very good effect over a pink, lilac, or pink muslin dress.—The ribbon in the burnous must, of course, match the color of the dress over which it is worn. A very simple and at the same time elegant shawl may be made of muslin, edged with two tucks about an inch wide and one inch apart, crossing each other at the corners, and trimmed round with a frill about six inches deep, with a hem and one tuck to match the shawl. The upper part should be fastened in two deep plaits.—Quilting dresses in all colors, with casaques to match, are the most favorite negligee walking attire for the country and the sea side during the months August and September. A very becoming young lady's toilette may be composed of a drab English barege, with a very full skirt, bound at the bottom with black velvet, and a long full casaque to match; the corsage only being lined, and fitting close to the figure. The sleeves are of the pagoda shape, very wide, and not cut up. Under these are very clear muslin sleeves, reaching not much below the elbow, and finished by a band of black velvet with long ends.

With this dress is worn a rice straw bonnet, edged with pink and black taffetas and trimmed under the front with a wreath of pink roses, without leaves, placed across the forehead. A very thin and black fall is fastened on the edge of the bonnet, and thrown back. The fashionable colors for taffeta silks are drab and black.—Double skirts are even more worn than flounces. The former are ornamented by borders woven in the the material, or with a plating *a la vieille.*

All sorts of cosmetics are now in demand; the seaside winds and the August sun being injurious to the complexion. The establishment of *Laboulle Foquer* 83 *Rue de Richelieu*, is crowded with his customer's asking for the *Acetine* or *Amandine*, both agreeable in using and serviceable to the complexion. The prettiest summer and autumn gloves of this establishment are the real *gants de Suede*, stitched with black silk and having a row of black embroidery covering the elastic, under which there is a sort of small scolloped frill falling over the wrist.

☞ The Oshkosh *Democrat* says:—The weather of late has been very cold for the season of the year. We have had several frosts to light, however, to affect the crops seriously. Wheat in threshing turns out better then was expected; at least a good half crop will be realized. Potatoes are light. Other crops promise well. Corn never looked better. On the whole, farmers have no cause to complain. Prices range high enough to make up the deficiency in amount.

REMARKABLE SHOT.—A gentleman residing in Dinwiddie county, Va., killed a deer last week, says the Southside *Democrat*, with one of Colt's revolvers, at a distance of one hundred and thirty-eight yards.

Oliver Cromwell's Skull.

Before leaving England I had an opportunity of seeing a great curiosity, a relic of antiquity, which few Englishmen have seen. You will be surprised, and perhaps incredulous, when I say I have seen the head of Oliver Cromwell,—not the mere skull, but the head entire, and in a state of remarkable preservation. Its history is authentic, and there is verbal and historical evidence to place the thing beyond cavil. Cromwell died at Hampton Court in 1658, giving the strongest evidence of his earliest religious convictions, and of his sincerity as a Christian.—After an imposing funeral pageant, the body having been embalmed, he was buried in Westminister Abbey. On the restoration of the Stuarts, he was taken up and hung in Tyburn. Afterward his head was cut off, a pike driven up through the neck and skull and exposed on Westminister Hall. It remained there a long while, until, by some violence, the pike was broken and the head thrown down. It was picked up by a soldier and concealed, and afterward conveyed to some friend, who kept it carefully for years. Through a succession of families, which can easily be traced, it has come into the possession of the daughter of Hon. Mr. Wilkinson, ex-member of Parliament from Buckingham and Bromley. It was at the residence of this gentleman that I saw the head, and his daughter, a lady of fine manners and great culture, exhibited it to Rev. Mr. Verrell, the pastor of the Bromley Dissenting Chapel, and myself.

This head of Cromwell is almost entire. The flesh is black and sunken, but the features are nearly perfect, the hair still remains, and even the large wart over one of the eyes—such being a distinctive mark on his face—is yet perfectly visible. The pike which was thrust through the neck still remains, the upper part of the iron nearly rusted off, and the lower wooden portion in splinters, showing that it was broken by some act of violence. It is known historically that Cromwell was embalmed, and no person thus cared for was ever publicly gibbetted, except this illustrious man. In addition to the most authentic records concerning the head possessed by the family, and which I have found sustained by historical works and even an old manuscript in the British Museum, Mr. Flaxman the distinguished sculptor, once gave it as his opinion that this was none other than the head of Oliver Cromwell. Yet its existence seems almost unknown to the people of England, and only a few years ago a discussion in some of the public journals which I have seen, alternately denied and advocated it. Such a rumor was in circulation, and as no one had then seen the head, it having been kept concealed, none could speak by authority. Recently the motive of concealment has passed away, and permission to see it was carefully granted. It is a curious keepsake for a lady, but it is carefully preserved under lock and key in a box of great antiquity, wrapped in a number of costly envelopes, and when it is raised from its hiding place and held in one's hand, what a world of thought is suggested.—*Correspondence of the N. Y. Express.*

C. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.

THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.

The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.

The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for

Dyspepsia, Flatulency, Cramp, Colic, Languor, Low Spirits, General Debility, &c.

NO FAMILY SHOULD BE WITHOUT IT.
RETAIL PRICE $1,25 PER BOTTLE.

Recommended by the physicians and druggists of the United States.

C. Simmonds has appointed J. P. & F. J. Haley, 141 East Water st., Sole Agent for State of Wisconsin, where dealers and customers please forward their orders.

By calling on the agent the public will receive a sample gratuitously. my19d1yg650.

INSTRUCTION.

SALOM'S
Wisconsin State
Mercantile College
Juneau Block, Milwaukee.

A COMPLETE BOOK-KEEPER'S EDUCATION for twenty-five dollars.

Life Scholarships will be issued for the above nominal sum *for a few weeks only,* in order that many now out of employment may prepare themselves for THE GOOD TIME COMING. The mercantile course is advisedly estimated as the most extensive, thorough, *practical* and *modern* to be found, and every precaution has been taken, that, for the acquisition of a business education complete to the most minute particular, it shall, as heretofore, have *positively no equal.*

The student conducts, in the most approved style, the following business books, which with their corresponding transactions were modelled at great expense for this College only by eminent bookkeepers actually engaged in the various departments represented, viz: Railroad, (operative and constructive), Bank, Hotel, Lumber, Compound Co. Adventure, Jobbing, Importing, Exporting, Forwarding, Express, Commission, Mill, Steamboat, Warehouse, Publishing, Printing, Auction, Insurance, Administrators, Professional, Wholesale, Retail, Individual, Partnership, &c. He is thoroughly drilled in every kind of calculations, documents, and correspondence that can possibly occur in business, and will receive instruction in Mercantile Grammar, Geography, and Law, the Art of presiding over Public Meetings, &c.

Civil Engineering and Surveying complete.........$40

☞ Graduates Assisted to Situations.

N. B.—No one desirous of investing his time and money to the best possible advantage in taking a commercial course, must omit applying for a catalogue, which will be sent free by the President.

IMPORTANT CAUTION.—Strangers will be under the necessity of carefully noting the title of this College and following the sign boards erected for their guidance in the College Building, as another teacher has represented his school as "Salom's College."

LINCOLN'S
Milwaukee
Commercial College
212 and 214 East Water Street,
MILWAUKEE - - - WISCONSIN

THIS Institution, the oldest in the State, and incorporated by the Legislature, is now in the most complete working order, with superior advantages. Every facility is here enjoyed by students for the perfecting of a sound and thorough commercial education, qualifying them to fill the most important and lucrative positions in any and all departments of business.

THE COMMERCIAL COURSE

Comprises Book-Keeping in Double Entry in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, in stock partnership and compound Company business, Commercial Calculations in per centage, Exchange, Bank and Regular Discounts, Averaging, Accounts by simple and compound Equations, &c., according to the most approved methods. Commercial Correspondence, including Account Sales, Account Currents, Drafts, Bills of Exchange, &c., &c.

A thorough Course in this Institution can be completed in from eight to twelve weeks. As there are no vacations in this College, gentlemen can enter at any time throughout the year.

Diplomas under the seal of the College are awarded to graduates.

Merchants and other business men are informed that, at any time, by a few days' notice, they can be supplied with competent accountants, and young men will be assisted in procuring situations when desired.

THE OLDEST ESTABLISHMENT IN THE CITY

TURTON & SERCOMB,

MANUFACTURERS of Steam Engines and Boilers, Flour and Saw Mill Gearing, Brass and Composition work, together with Castings of all descriptions.

Also manufacturers of the celebrated Haviland & Tuttle Patent Centre-Vent Water Wheel. It uses less water, in proportion to the power given, than any other wheel manufactured. It is adapted to either high or low heads of water, runs perfectly steady, and is not affected by ice or back-water, only in the loss of head. In addition to this it can be sett with but little delay, and at no greater expense than ordinary wheels. It has given general satisfaction to all who have used it, and that, together with its durability, having been used in Messrs. Ludington & Co's Mill over seven years, without one dollar expense, gives it an entire superiority over all other wheels. Descriptive circulars forwarded on application.

Mill Stones, Bolting Cloth, Solve Wire, and Mill furnishings, of all descriptions, at the shortest notice.

We have laid off the balance of our original purchase on Spring street into lots, and now offer them on the same terms as heretofore, viz: *On each hundred dollars of purchase money five dollars in advance, and three dollars per month thereafter until paid WITHOUT INTEREST.* The lots are beautifully situated on high ground in a healthful locality, and embraces some of the finest views about the city. They will bear examination.

The very low price at which they will be sold, together with the terms, commend them to the attention of all classes who desire a home and exemption from rents.—Young men, mechanics and laboring men, and tradesmen of small means have here an opportunity to invest that is within their reach. We have an agent on the property every day, after 2 P. M., to show the lots.

THE LIVER
INVIGORATOR!
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

IS one of the best purgative and Liver medicines now before the public, that acts as a *Cathartic,* easier, milder and more effectual than any other medicine known. It is not only a *Cathartic,* but a *Liver* remedy acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics.* It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

☞ One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

☞ A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

☞ MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose giving benefit,* and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache,* all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

MORE TO BE ADMIRED THAN THE
RICHEST DIADEM
EVER
Worn by Kings or Emperors.

WHAT? WHY A BEAUTIFUL HEAD OF HAIR.

Because it is the ornament *God Himself* provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh* and *dry,* or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

DR. WOOD:— NEW YORK, April 19th, 1858.

Dear Sir: Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention—quite efficacious as well as agreeable. I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwyliedydd."
WELSH NEWSPAPER OFFICE,
113 Nassau st., April 12, 1858.

PROF. O. J. WOOD—*Dear Sir:* Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hair back to brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change in their hair.
CHARLES CARDEW.

NEW YORK, July 25, 1857.

PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being a most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.
J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grew out, and turned back to its former color, black. At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all. J. D. HOES.
Chicago, Ill., May 1, 1857.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40, or cent more in proportion, and retails for $3.

A Card from Dr. James M. Jarrett,

OF THE NEW YORK LUNG INFIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of *Medical Inhalation*—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive cure of all diseases of the *Throat, Lungs, and Air-Passages.* By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of *general treatment;* and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both *general* and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity had been long and liberally supported, after due consideration, I have concluded to make such arrangements as will bring benefits of my experience and treatment within reach of all, and not to confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that *I can now be consulted personally or by letter,* on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. *Inhaling Vapors, Medical Inhalers,* &c., &c., will be forwarded to any part of the United States or the Canadas. TERMS—My terms for treatment by letter are as follows, viz: $12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: $6 to be paid to Express Agent on receipt of the box of Medicine, and the balance $6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advise promptly answered. For further particulars address JAMES M. JARRETT, M. D.,
No. 521 Broadway, cor. Twelfth st., N. Y.

P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our *improved apparatus* for the inhalation of medicated vapor can be seen and inspected. sep8h148d6mo

Private and Confidential Medical Advice,

AT the MILWAUKEE VENERIAN HOSPITAL, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by DR. BARNES.

DR. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhœa, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain the head or bones, and all Mercurial Affections, and all impurities of the blood whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charges for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL,
Wednesday Evening, Sept. 15, 1858.

MONEY MATTERS.—The market is sufficiently supplied with Currency for all strictly business demands, and the Banks are freely taking all the produce paper offering at 10 per cent. Within the past two weeks the demand for Currency has considerably increased. Exchange on the East continues firm at 1 per cent premium. Gold is selling at 1a1½ per cent, and Note Brokers range from 1½ to 2 per cent.

The market opened dull this morning, buyers being scarce, and the offers made being full 2c on spring wheat below yesterday's figures. The decline, though nominal, was not very well established, for holders, in most instances, were firm in asking yesterday's prices, and in consequence the transactions of the day are extremely light. In the afternoon the sellers held out to the last in maintaining previous prices, but buyers evinced no disposition to improve on the morning's offers. The receipts by railroad keep well up considering the unsettled state of the market. We quote to-day:

WHEAT—Market heavy and prices nominally 2c lower. The outside figures obtained for No. 1 to-day were 53c, and we have heard of no sales of milling extra, though it is quoted at 9a95c, and red and white winter are both nominal. Sales of 2,000 bus No. 1 spring at 53c; 500 bus extra at 90c.

FLOUR—Heavy, and prices drooping. Sales of 40 bbls "White Creek Mills" spring extra at $5.

FREIGHT—Rates continue unchanged. The sch. H. L. Lansing takes a cargo of wheat to Buffalo at 4½c.—Freight on flour to the same port is 20c, and on wheat to Oswego 9c. The sch. Barbarian loads with wheat on owners account.

OATS—Are heavy and unchanged; 35a42c for new and old samples.

CORN—Quiet at 60a62c.

BARLEY—75a80c for common to choice lots.

RYE—Quiet at 63a65c.

TIMOTHY SEED—$, 2 a $1 25c.

POTATOES—Range from 25 to 35c from common to good lots.

EGGS—Nominal at 8a10c.

BUTTER—Firkin 10a12c; fresh roll at 12½a15c.

HIDES—In demand at 7c for green, 8a8½c for do salted, 13a14c for dry salted, 14a 5c for dry flint.

HIGHWINES—Firm at 23a24c, in large and small quantities.

WHISKEY—Firm at 20a21.

SPIRITS—Alcohol 54c, Spirits Turpentine 60c, Burning Fluid, 57c, Camphene 65c.

OILS—Linseed 85c, Lard 90a95c, Whale 85c.

WHITE LEAD $7 50a9,50 per ton.

WOOD—Mixed $2a2,25; maple $2,50a3.

HAY—Plenty at $5a$6 per ton for marsh, and $7a8 for timothy.

CHICAGO MARKET.

CHICAGO, Sept. 15.

Breadstuffs have been quite dull to-day, owing to the firmness of holders, and very few sales transpired until after New York news, when sellers gave away and the market fell to 72c for No. 2 Spring in store. About 33,000 bus changed hands during the morning.

Corn is quiet, closing firm at a slight advance, and sales limited to some 5,000 bus. In the minor grains there is very little change to note. A difference of 20c is made between Nos 1 and 2 Barley.

OAT One car load new sold at 39c in store.

FLOUR—One hundred bbls Harvest Mills superfine spring sold at $3,8 delivered.

FREIGHTS The prop Galena takes Wheat to Buffalo at 7c, and the schr Clayton takes Wheat to Kingston at 7c, and the McNair Wheat to Buffalo at 4c.—*Journal of last evening*

NEW YORK MARKET.

NEW YORK, Sept. 15.

FLOUR—Market more active both for export and home consumption, and prices unchanged; sales 5,000 bbls at 3,85a4,25 for the whole range sound, with trifling lots at 4,55a4,65 for extra state; 3,20a3,50 to superfine western; 3 85a5,0 for common to medium extra western; 5,40a5,55 and 5,6 a5,70 for shipping brands extra round hoop Ohio; closing moderate active; included in the sales are 1,000 bbls export at prices within the range. Canadian flour a shade firmer, sales 450 bbls at 4,50a6,50 for common to choice extra. Small sales of Rye Flour at 3,50 a4,20.

WHEAT—1a2c higher, with better demand, in part for speculation and export; sales 35,000 bus at 1,00 for good Chicago spring and fair Milwaukee club, 1,14a1 17 winter red western, 1,2 for common white Michigan, 1,18a1,25 for red southern, and 1,25a1,30 for white do.

RYE—Firmer; sales 3,500 bush at 76, and new held at 68.

BARLEY—Steady; sales 7,500 bu at 77½ for fair State.

CORN Better demand for fair, in part for export; sales 64,000 bus at 65½a72½ for unsound to prime mixed western.

OATS—Lower and dull; 41a46 for State, and 47a49 for western.

WHISKEY—Heavy; sales 60 bbls at 24 24½

PORK—Market unchanged; sales 900 bbls at 17,40 for mess; 15,2 a15 40 for prime

BEEF Unchanged; sales 150 bbls at 14 00a14 50 for repacked mess, 15,00a15,50 for extra mess. Prime mess beef nominally unchanged. Beef Hams firmer; sales of 100 bbls new, to arrive in 25 days at 25a25

CUT MEATS—Firm at 6½ for shoulders, 8½a8½ for hams; sales 50,000 lbs clear sides, and 60,000 lbs light and rough sides at 8½.

LARD Scarce and firm; sales 45 bbls at 11a11½.

BUTTER—Steady; 1 a17 for Ohio, and 17a20 for State.

CHEESE—In moderate request 5a7½c.

CATTLE—Little animation was manifested in beef cattle, owing to the heavy receipts of the past few weeks; prices unchanged and ranging from 4½ to 9c, averaging about 7c. The receipts last week were about 3 500 head. Sheep market active and prices sustained, heavy corn fed quoted at 5,5 ; light do at 4,50a5, swill fed heavy at 4,75; receipts 5,688.

STOCKS—On board steady; IC bonds 90½, PM 91½, N Y C 7-½, Erie 17½, Harlem 10, Reading 48, S 15, M S 23½ Hudson 27, Panama 119, C & T 32½, G & C 82½, C&R I 61½, La C & M ½.

BUFFALO MARKET.

BUFFALO, Sept. 15.

FLOUR—There was only moderate demand for flour today; market shade easier; 2,000 bbls at 4,5 for state; 4,50a5,00 for [illegible]; 5,00a5,25 for good to choice superfine Ind. Mich., Ohio and Canadian; 5,87a5,62 for good to choice extra do.

EYE AND EAR!

DR. G. A. KNAPP, Oculist and Aurist, operator on the Eye and Ear, of Buffalo, N. Y., has removed to Milwaukee, 418 Jefferson street near the [illegible] House.

Dr. K. is an *experienced* dentist, having treated diseases of the Eye and Ear 10 years—inserts the best artificial eyes, for which he has taken a Diploma,—and mails his pamphlet on the Eye and Ear to any address, free of charge.

Persons having any disease of the Eye or Ear will do well to avail themselves of Dr. K.'s well known experience and skill. sep1-15daw1y

EYE AND EAR INFIRMARY!

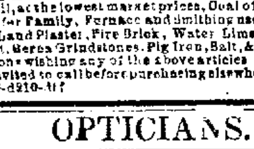
MEIGS CASE, M. D.,
OPERATOR UPON THE EYE & EAR.

LECTURES ON THE EYE.

STRABISMUS, or Cross Eye, may be defined to be a want of harmony between the two eyes, which exists to such an extent that one of them does not move with the other, but is turned away involuntarily to the other side.

It is an affection so apparent as scarcely to require explanation, and is a most unpleasant defect, particularly to young people, and never fails to impair the sight more or less.

It consists essentially of a contraction of one of the six muscles which fix the ball as represented in the cut.



The operation is usually performed by me, in a few seconds, and is always entirely successful, both in relieving the deformity and improving the vision to a great degree.

Operations for Cataract, artificial pupil, &c., scientifically and successfully performed.

French artificial eyes inserted without operation or pain, having the appearance and all the motions of the natural eye.

All the recent discoveries and improvements in the diagnosis and treatment of ocular and aural diseases, will be resorted to for the restoration and preservation of the most valuable of the senses, *sight* and *hearing*.

Persons from a distance will be provided with boarding houses by making application at the office immediately on arriving in the City.

Operations, medicines and advice gratuitously given to persons who are really indigent, during the unoccupied moments of the operator.

CHICAGO AND THE EAST.

FARE AS LOW AS ANY OTHER ROUTE

Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.

Trains leave Depot on VAN BUREN ST., daily as follows

8:00 A. M. 5.45 P. M.

With but one change of cars to Pittsburgh, CHECKING BAGGAGE THROUGH

To Pittsburgh, Philadelphia, Baltimore and New York, Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

PRONOUNCED BY CONNOISSEURS TO BE THE ONLY "GOOD SAUCE," AND APPLICABLE TO EVERY VARIETY OF DISH.

EXTRACT OF A LETTER from a MEDICAL GENTLEMAN at Madras, to his brother at WORCESTER, May, 1851.

"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."

Extensive Frauds.

The only Medal awarded by the Jury of the New York Exhibition for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE—the world-wide fame of which having led to numerous Forgeries, purchasers are requested to see that the names of Lea & Perrins are upon the *Wrapper, Label, Stopper and Bottle.* Lea & Perrins will proceed against any one infringing either by manufacturing or vending spurious Sauce, and have instructed their correspondents in various parts of the world to advise them of any infringements.

RICHARDSON'S
IRISH LINENS!
Damasks, Diapers, &c.

CONSUMERS of Richardson's Linens, and those desirous of obtaining the Genuine Goods, should see that the articles they purchase are sealed with the full name of the firm,

Richardson, Sons & Owden.

as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed upon with Goods of a worthless character. MEDICAL.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA,

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS,

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill.—While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.
